

Cisco Catalyst Express 500 Series Switches

Cisco Catalyst Express 500 Series switches deliver best-in-class networking that is designed to meet the needs of growing businesses with up to 250 employees. This family of Layer 2-managed Fast Ethernet and Gigabit Ethernet switches offers non-blocking, wire-speed performance and provides a secure network foundation optimized for data, wireless, and IP Communications. The Cisco Catalyst Express 500 also offers options for Power over Ethernet (PoE) to help reduce the cost and complexity of IP Communications and enable new uses for the Ethernet network.

A New Generation of Hardware and Software

The Cisco Catalyst Express 500 Series also features:

- Multiple models depending on a customer's network requirements
- Attractive pricing
- A limited lifetime warranty
- SMB Support Assistant—a flexible support offering tailored for growing SMBs

Configurations

- | | |
|------------------|---|
| • WS-CE500-24TT | • 24 10/100 ports and 2 10/100/1000Base-T uplinks |
| • WS-CE500-24LC | • 20 10/100 ports, 4 10/100 PoE ports, and 2 10/100/1000Base-T or SFP uplinks |
| • WS-CE500-24PC | • 24 10/100 PoE ports, and 2 10/100/1000Base-T or SFP uplinks |
| • WS-CE500G-12TC | • 8 10/100/1000Base-T ports and 4 10/100/1000Base-T or SFP ports |

Available for the Catalyst Express 500 Series, the Cisco Network Assistant is a centralized management application that simplifies the administration task of Cisco switches, routers, and wireless access point. Free of charge, the Cisco Network

Assistant provides configuration wizards that greatly simplify the implementation of converged networks and intelligent network services.
